

ThutoAi – Homework Helper for Busy Parents

Empowering Parents with AI-Powered Homework Support

By: Andile Gracious Dhlamini

Event: Vibe Coding Hackathon – July 04, 2025

1. The Challenge for Busy Parents

Problem Clarity

- Parents lack time or expertise for helping with homework
- Traditional tools are overwhelming or behind a paywall
- **80% of parents struggle** with modern school curricula
- The burden often falls on already stressed guardians

 *Insight:* Homework anxiety affects both parents and learners.

2. ThutoAi – Your Homework Ally

Solution Quality

- AI-powered tool that offers **step-by-step answers**
- **First question free**, paywall prompts for more
- Designed to be intuitive, mobile-friendly, and parent-focused
- Encourages learning, not just copying

 *Goal:* Make support simple, fast, and accessible to every parent.

3. What Makes ThutoAi Stand Out

Key Features

-  One free AI-generated solution per session
-  Pay-per-use (KES 5) or monthly subscription model
-  Dark theme with green/yellow accents
-  Coming soon: Upload handwritten questions for AI analysis

✨ *UI/UX:* Friendly for both parents and older students.

4. Monetization Strategy

Market Insight

- Parents are **willing to pay small amounts** for convenience
- Aligned with **mobile payment culture in Kenya** (e.g., M-Pesa)
- Pay-per-use keeps the barrier low for new users
- 💡 *Partnership Potential:* Schools and e-learning platforms

📈 *Revenue Model:* Sustainable, scalable, school-ready.

5. Technology & Prototype

Built with Speed and Innovation

- 🖥️ HTML + Tailwind CSS + JavaScript
- 🧠 Local Python server setup for demo
- ⚡ Grok 3 (xAI) integration-ready for live AI answers
- 📸 Screenshots: [index.html](#) and [paywall.html](#)
